(https://globaldiamantoa.sched.com/)

The purpose of the Global Summit on Diamond Open Access is to bring together the Diamond OA community of journal editors, organizations, experts, and stakeholders from the Global South and North, in a dialogue that seeks to implement collective action in the spirit of the Recommendations on Open Science from UNESCO and BOAI 20 years, where Equity, Sustainability, Quality and Usability are the pillars of our journey. For the first time the global OA Diamond community will meet in Toluca, Mexico to exchange and coordinate actions to better support equity in scholarly communication practices. The summit, co-organised by Redalyc, the Autonomous University of the State of Mexico, AmelICA, UNESCO, CLACSO and the Action Plan for Diamond Open Access, will combine two conferences during Open Access Week.
